Go down along “Chuo-dori Street 中央通り” with big trees.

Turn left at a big crossroad named “Nakajin-cho 中新町” with an underpass and a big signboard of "Rexxam" on the right above.

After turning left, go straight along “Kanko-dori Street 観光通り”.

Between this crossroad and wakabaya, you'll cross railways twice and see overbridges twice.

If you are going on the left side of street, cross it and keep right side.

Just keep straight along "Kanko-dori Street 観光通り".

When you cross a bridge over a river, wakabaya is waiting you very near.

After the bridge, turn right at the corner with a signboard of "Date Hospital 伊達病院".

You'll find wakabaya 50m after that corner.
